Foreword

This year we ask that you compare your school annual to a television set. Like the scenes that flash across the screen so the pages of the Tradewind reveal life here at Vocational for the past year.

We have tried in a pictorial way to present a story of all the things that are a part of school life. It is our intention to highlight those activities and special events that have had the greatest influence upon our accomplishments as we have worked from day to day with our friends and fellow students.

It is our hope that in the years to come, you will be able to look back through your 1949 Tradewind and relive some of the most fun-filled and carefree days of your lives.

Senior Prom

Pretty girls in swishing formals dancing with handsome boys to soft low music made the Columbia Chalet a very picturesque place the evening of January 21. The boys and girls from school brought their own gals and guys from outside school. The music, which was provided by Les William's Orchestra, made the Senior Prom a real success.

Homecoming

What a game! And a double homecoming at that. Little Volto had the help of his brother, Reddy Kilowatt at the game, October 22, but the two of them didn't give Washburn enough shocks to hurt them. The crowning of Queen Laurel Martens and King Bob Wills took place at the dance. One of the reasons for the large turnout at the dance was due to the wonderful music of Bud Strawn's Orchestra.

Aviation Mechanics

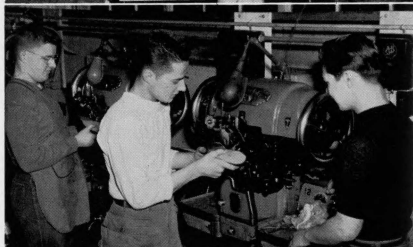

If you are air-minded then our course in Aviation is just the thing to satisfy your needs. Boys in this department do work on actual plane engines and structure. This is valuable experience for those who wish to become pilots and those who complete the course are eligible to take the C A A examination for licensed mechanics.

Shoemaking

The boys in the Vocational shoe shop can give that old pair of shoes a new look.

Instructions include working with leather, rubber, cloth, and composition products and the study of the quality of materials. They learn how a pair of shoes are made as well as the fundamentals of starting a business.

Upholstering

This year as usual the boys in upholstery have been busy trying to keep up with the steady stream of orders for new furniture and for repair work. This makes it possible to offer a wide variety of experiences in the skills and techniques of upholstery. If you like nice furniture see this department.

Sheet Metal

If you need a new tackle box or a tool box place your order with the Sheet Metal Department. Some of the more recent projects turned out have been, first aid kits for the Minneapolis schools, one hundred tool boxes and a number of steel cases for the Red Cross.

Tailoring

There are many samples of the work done in this department walking around school every day in the form of good looking suits, coats, shirts, trousers etc. One of the larger projects turned out this year was the making of fifty uniforms for the school band.

Architectural Drafting

Students in this department let their interest run to building plans for all types of structures. Regardless of whether it's blueprints for a modernistic home or plans for a skyscraper, the boys learn how to turn them out. This work calls for a knowledge of building design and construction as well as ability in drawing.

Radio

Static, static and more static, besides news, music and daytime serials is the kind of noise the boys in the Radio Repair Shop hear while fixing those radio sets. They not only repair these sets but also get some experience in the major branches of Radio Repair work such as specialized electricity, theory, and repair and radio wiring.

Cosmetology

Did you know that each girl in Cosmetology has to have fifteen hundred actual clock hours of training before she can take the State Board Examination? This examination is given four times a year, in February, May, August and November. The curriculum requirements are to learn: permanent waving, facials, hair tinting, bob curling, manicuring, shampooing, finger waving and scalp treatments, besides electricity, hygiene, physiology and the theory of Cosmetology.

Restaurant and Tea Room Training

This is one of the most interesting departments in school to both boys and girls. Strange as it may seem there are more boys enrolled than girls this year.

Students learn not only the theory and practice of cooking, but also receive specialized training in menu planning and serving. They actually cook for and serve the public in our tea room which is open to the public for luncheon every day.

Business

The Business Department, one of the largest in school, provides training for all the various types of jobs found in an office. Newest methods and types of office equipment are used in training procedures which include many jobs which are turned out for the public. For example in Multilith thousands of Christmas and other greeting cards are made each year. All the various branches of the department provide a similar type of actual job practice.

Machine Shop

Boys taking this course have plenty of opportunity to learn to make all kinds of things from metal. Included in their training is bench metal work, and the operation of such machines as drill presses, lathes, grinders, shapers and milling machines and heat treatment of metals. Completion of the course prepares students to become machinists, machine operators and toolmakers.

Needle Arts

Where do you buy those cute aprons? Why, the Needle Arts Department of course. Besides making uniforms for some of the departments at school these girls also create most of the wearing apparel in the retail store. They must operate single needle and sometimes more difficult machines. The study of textiles is a necessity.

Commercial Art

Our Art Department is turning more toward the commercial field than ever before. Lettering is emphasized because it is a necessity in any field of art. The technique of handling a brush, pen, and various paints are taught, with design as a basis for all art problems.

Display as it is related to art is stressed in our school. Students are given practical experience in decorating the store windows, the interior of the store, and the bulletin boards.

Recently in the Scholastic Art Contest, Vocational's Art Department was given one of the highest rankings of all schools entered in the contest.

Metal Arts

That good looking costume jewelry, those beautiful candle holders, pewter dishes, etc., that you have seen in the store come from the Metal Arts department. Students in this department are trained for jewelry manufacturing, which requires a great deal of imagination and patience.

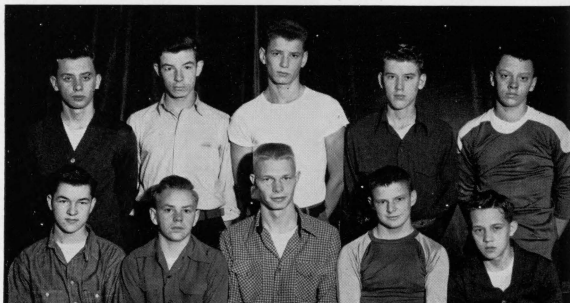

Machine Drafting

The boys in Machine Drafting have been busy as usual this year learning the principles of how to design machines. This work requires, in addition to drafting ability, a knowledge of mathematics, lettering, blue-printing and tracing. The machine draftsman is an important cog in the wheel of modern day industry.

Pre-Nursing

"An apple a day keeps the doctor away," so the saying goes. But it doesn't say anything about the pretty girls in Pre-Nursing. These girls receive their training at the Vocational Hospital and Nursery Schools. If any of the Pre-Nursing girls wish to become a practical nurse they can take the nine month post-graduate course that is offered at the hospital.

Electricity

Have you ever heard of volts? Don't misunderstand us; we are referring to what the boys study in the electrical department not our athletic teams. In this shop the boys learn signal work, and study the telephone and telegraph and light and power. They also learn the art of splicing and wiring which is always good for anyone to know.

Retail Training

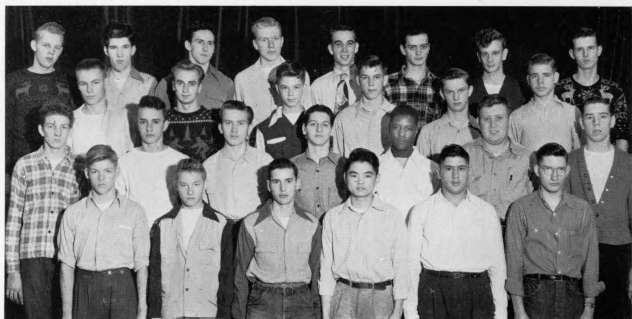

A smiling face and a courteous manner. That's the typical appearance of a salesperson from the Retail Training Department. Much of the experience needed in salesmanship is obtained in the Vocational Shop. They learn stockkeeping, cashiering, wrapping, window display, counter arrangements, and actual selling. After their training, students are placed in various department stores.

Pattern Making

Pattern making although a small department is of great importance to industry. It is a highly specialized branch of the wood working field and a necessity to all the metal working industries. The work requires a knowledge of mathematics and drawing as well as the ability to read blueprints. A high degree of finger dexterity is an asset in this work.

Woodworking

I always had the idea that there was much more to woodworking than meets the eye. An excursion through this department proved my idea was right because some of the most necessary things learned in woodworking are, hand tool manipulation, care of tools, and wood finishing. The use of machines in cabinet making and in general wood work is also taught.

Student Council

The Student Council meets every other Thursday to cooperate with the faculty on all student problems. It sponsors two all-school parties each year, and assists in other school activities. Mrs. Rice and Miss Nelson are the advisers. George Gammel was president for the fall term and Arlene Wagmer for the spring term.

Youth Leadership

These students were chosen for the Youth Leadership Conference because of the leadership ability they have shown in school activities. Leadership in the home, school, church, and community were discussed. The conference was held at the Y.W.C.A., and was sponsored by the Y.M.C.A. and the Y.W.C.A.

Tradewind

Pictures, writing copy, planning pages! What a lot of work there is to a yearbook, but still it's a lot of fun seeing it grow from the beginning to the completed product. The staff has worked hard so that you Vocationalites may enjoy your Tradewind. Mr. McGimpsey, staff adviser, has been very patient and worked hard in assisting the staff.

Crier

Hey, Mary, come on, get your Crier before they are all gone. Let's look and see what the gossip column has in store for us. The Crier staff has done a fine job in keeping the students and faculty informed about activities around the school. Editor-in-chief was Marie Tauche, and Miss Fisk is staff adviser.

Glee Club

Give them their chords, pianist, that's it. You would hear something like that if you went into the Glee Club room. The students that are interested in group singing are able to join the Glee Club if they have the free period. Under the direction of Mr. Cooley they learn to develop their musical ability. The Glee Club takes part in many of the programs that are presented by the radio club and also participates in Graduation exercises and Christmas festivities.

Band

Look at the size of that band. . . . It certainly has grown since we came to Voc three years ago. This year we have seen the beginning of the organization of a new school band. There has been a great deal of student and faculty interest behind this project. Quite a number of new instruments have been bought and the tailoring department has made a complete set of new uniforms, designed in the school colors. A definite schedule has been set up to insure regular group practices. There are fifty members at present and the number is expected to be larger next year. Mr. Cooley has done a great job in organizing a much bigger and better band for Vocational.

LeRoy Larsen and Doris Stevens are shown modeling the new band uniforms.

Clubs

Vocational is proud of its Club program in which all students take part, as members of democratic organizations.

Students are allowed to select the clubs that best suit their taste and interest. In this way many a hobby is developed and many new ones are found. In numerous instances new clubs are formed to fit the desires of a group of people with new and different interests. This year the violin and the harmonica clubs were added to the program.

Some of the more popular clubs which meet every other Friday, are Dancing, Camera, G. A. A., B. A. A., radio and safe driving.

Cartoon

Look at the size of this character's nose. It surely is big. Members of the Cartoon club discover what makes a cartoon funny. After learning the fundamentals of cartooning they try to draw their own as is shown in this picture by John Witlow, Lois Koelblinger, and Eugene Lemke.

Camera

Real credit goes to this club for providing many of the pictures for the Tradewind. Members learn the art of taking photographs and snapshots correctly. They are also taught how to make selections of objects to be used, plus many other things of interest.

Row 1: Torney Marshall, Betty O'Brien, Virginia Stinson, Paul Winje, Idore Pedersen. Row 2: Otto Volkert, Marlene Bakke, Donna Vizenor, Nancy Thomas. Row 3: Amy Kyono, Shirley Olson, Barbara Tuttle, Donald Taillifer, Lawrence Ray, Dick Nelson.

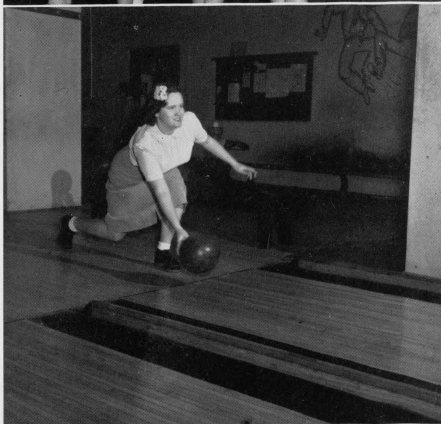

Y-Teens

This club is the junior part of the Y. W. C. A. It is for teen-age girls who like doing a variety of things. Their activities vary from service projects, such as making things for children's hospitals, to sponsoring parties. It is a world-wide organization which anyone may join. Representative of these young people are: Maureen Sinnott, Marcia Hanson, Deloris Pettis, and Nancy Peterson.

Bowling

What do ya' know! I got a strike! It's a miracle! This is probably just one of the many things that might be heard in the Y.W.C.A. bowling alley. The club members learn the correct form of bowling and how to keep score, and they find that it is loads of fun. Carol Nelson shows how to set the ball rolling.

Chess

Whoops, there goes Queenie scooting across the board while poor old King is lagging behind. In this club, players have a chance to match wits with their opponents in friendly competition. Rosemary Geary is shown here concentrating on a play against James Grilley while Vernon Berry kibbitzes.

Harmonica

All together now fellows. Ah one, ah two, ah three! The Harmonica Club is one of the most recently organized in school. Members not only learn to play the harmonica, but have a lot of fun in doing so. Members shown are: Row 1: Bill Nelson, Roy Green, Joe Balleck, and Row 2: Don Magnan, Bob Haverty and Lawrence Jeziorski.

Red Cross

This club makes things such as scrapbooks and tray favors for hospitals and sanitoriums. Their biggest project however, is taking charge of the Red Cross boxes that are sent overseas. Here, Ruth Gerhardt, Marilyn Milliman, Shirley Knaak, and Doris Larson are packing them.

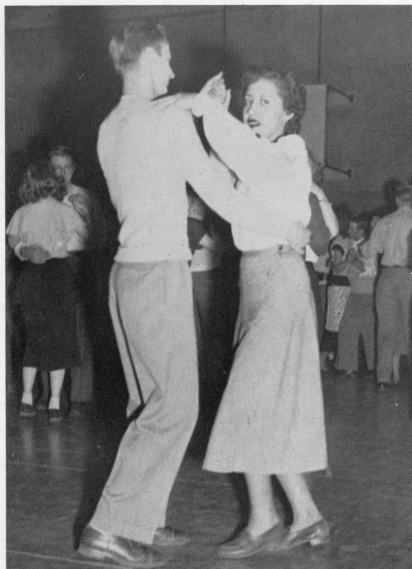

Radio

This club is the heart of Vocational because from here originate the scripts for the Wednesday broadcasts. Members take part in all broadcasts, and in this way gain poise, and ability to speak before a microphone or an audience.

Row 1: Lois Blomberg, Louise Bucjek, Dorothy Dahlen, Charlotte Krise, Joan Monson, Row 2: Laurene Stay, LeRoy Hodsdon, Charles Hood, Jim White, Janice Gavena, Row 3: Katy Yarrington, James Stafford, John Tomas.

Dancing

Because Dancing is one of the more popular clubs it is necessary that it be limited only to Seniors. Strains of waltzes, lindys, polkas, and other dance music may be heard coming from the gym on any club morning. To give a helping hand to those learning to dance are two expert instructors. Shown here are Roger Warrington and Amelia Aspinwall.

Home Planning

Looking into the future, hoping some day to have homes of their own, these young people plan and study ways to remodel and design homes to their particular tastes and needs. Here, Dick Hedberg, Marlene Wicherski, and Bob Glendenning look on with Mr. Schow at the beginning of a model home.

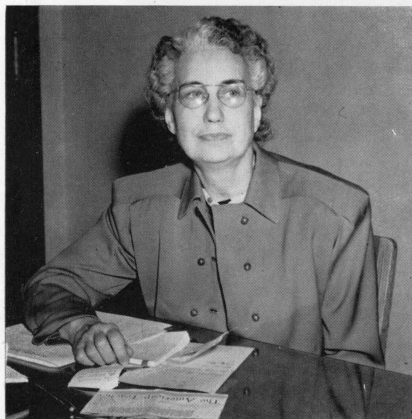

MR. RAYMOND V. NORD, *Principal*

Every organization, for its success, must have some one individual who is responsible for the direction of its activities. Here at Vocational Mr. Nord has been our leader.

We appreciate his guidance as we have traveled the

long road to commencement day. In return, we feel that we can best repay you for your efforts, Mr. Nord, by our deeds, rather than by our words. May we, in the future, become citizens worthy of the leadership you have shown in our school.

Football

The Volts ran into a poor season this year and came out winning only one game. Vocational opened with South, 1947 champions, and were the victims of a 44-6 defeat. They bounced back to defeat West 7-0 for their only victory of the season. Although losing to Edison 32-6 Vocational was the only team to score on Edison, the 1948 champs.

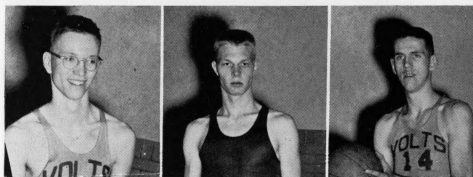

Injuries hampered the Volts all season. Chuck Ellis, speed merchant halfback, was ruled out early because of illness. Bob Wills, tackle, was lost for the season because of a knee injury in the first game. George Garrison and Donn Bjornson, were lost with cracked wrists.

Vocational saw outstanding talent in Jerry Reynolds, Chuck Boyce, and Jerry Lewis.

Next year Vocational has plenty of returning lettermen and new talent. The Volts should come into top form under the guiding hand of Coach Tom Withrow.

City Champions

Vocational climaxed a successful season by winning its first City Championship since 1938, in a three way tie with Washburn and Central. The Volts opened the season by cruising past South, but had trouble downing Central and West, by scores of 50-48 and 44-43 respectively. Their lone defeat came at the hands of Washburn by the score of 48-47. This loss cost them the outright championship. However, this game didn't discourage the Volts who rolled on and captured their last four games to tie for the City Championship.

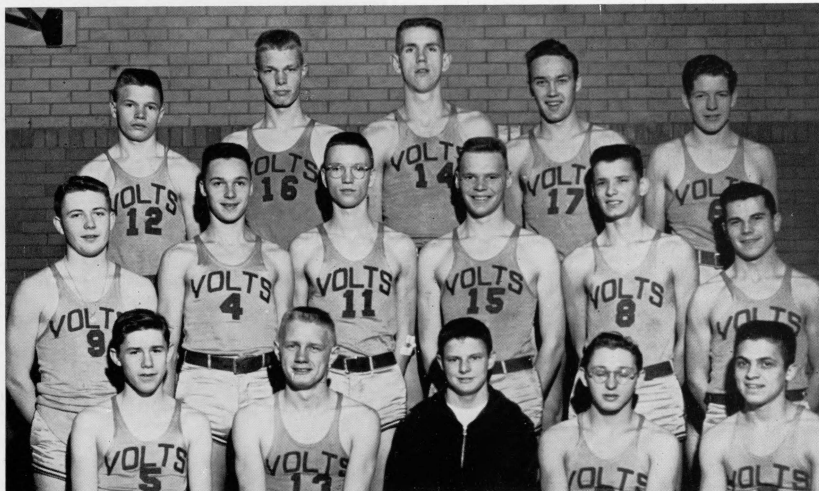

All-City Jerry Reynolds was lost to the cause through mid-season graduation. George Gammell replaced Reynolds who was a great loss to the team. Vocational was paced by record breaking scorer Bob Petersen. "Pete" captured the individual scoring crown

with 151 points in eight games. His great all around play earned him the center birth on the All-City five.

Vocational loses only two starters next year, Captain Donn Bjornson and George Gammell. The Volts should be a title threat next year with 6'9" Bob Petersen, captain elect, leading the cagers for his final year.

Cross Country

This year's Cross Country schedule was limited to just a few dual meets and the city meet. George Gammell and Savanah Hammond led the Volt harriers in the city-meet at Nokomis.

Next year will find three lettermen returning in this sport.

Hockey

The Volt puckmen finished with one win and four losses. Dave Brandvold, captain, was lost the last three games because of an operation. Dave was the defensive star of the year. Rand Backstrom led the offense with great play all year. The nets were always well guarded by Jerry Levendowski or Harold Johnson.

This was a tough league this year, stated coach Milton Kleven. We really missed Dave Brandvold the last three games.

Wrestling

The Volts ran into an unsuccessful season this year, but not so with Eddie Anderson who ran into a successful one. Eddie proved to be a champion as he took second in the State A.A.U., second in the region, and third in the State Meet.

Coach Jones explained there was a big shortage of boys in the heavier divisions. This was Mr. Jones' first year as wrestling coach and the boys were new to him.

Art Crone and Bill Arnold look like good prospects for the coming year.

Don Seefeldt captained the team this year. Next year should be bright with Art Crone, Bill Arnold, and Eddie Anderson back with some new talent.

Swimming

This year's tank team was a little under par, winning only one meet. Joe Pastwa was one of the outstanding divers in the city. He took first in every meet but one. Roger Warrington came up with some good work on backstroke, along with Chuck Witt's fine work. Mr. Booth, swimming coach, spent a great deal of time with the team.

Track

The 1949 track team, with the exception of three seniors will be returning next year, for another season of competition. Vocationals top men include Ron Stone, broad jump and hurdles, Eddie Anderson, one mile, Charles Ellis, the 100 and 220 dashes, George Gammell, hurdles and high jump, Savannah Hammond, 440, Leland Schmidt, half mile, Ward Wheeler and Ron Westberry, 100 and 220 yard dashes, and Bob Wills, the shot put.

Baseball

Smash—It's another hit. This is the familiar yell being heard on the baseball diamond now-a-days. In pre-season practice games the Volts split with Southwest, each copping one. Gene Bordwell, Howie Olson, Wally Kantorowicz, and Sam Werner are back to team up with new talent such as Tom Wilder, Bill Londer, Henry Czypryna, and Dick Malark. The team is made up entirely of juniors and sophomores. Next year the outlook should be very good with all hands returning.

Physical Education

Basketball, volleyball, line soccer, and numerous other games are taught in the girls physical education classes. Physical fitness tests are given once each semester to show the improvement the girls have made since they started. Good sportsmanship and fair play are two of the most important factors stressed in these classes.

Modern and old time dancing is taught to help the girls acquire rhythm. Folk dancing has had a huge comeback this year and Miss Edna Brannon has been teaching classes in this every Wednesday after school.

G.A.A.

The Girl's Athletic Association gives all girls interested in sports a healthful athletic program with plenty of competition in the various sports. The purpose of this organization is the building up of health, sports, and good sportsmanship. The girls meet in the girls gym every Tuesday at three o'clock, under the direction of Miss Edna Brannon and Mrs. Sarah Lemke. The sports they participate in are: Service Ball, Line Soccer, Basketball, Volleyball and Badminton.

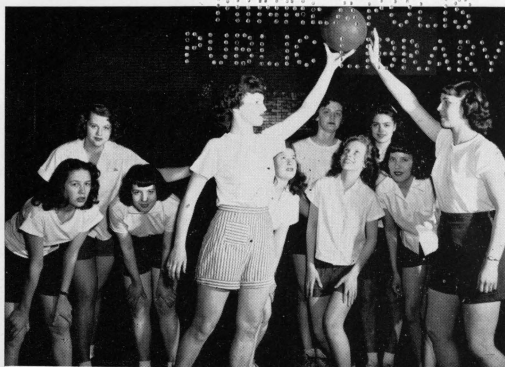

Girls earn their letters by means of the point system. Vocational letters are given to girls earning six hundred points during the year and All-City Emblems are given to girls that earn an additional four hundred points. As many as two hundred points may be earned for outside activities such as: horseback riding, skating, swimming and bowling. The other points can be earned only through the participation in the various sports.

The following girls will receive Vocational letters this year:

Janice Cavenda	525 points
Mary Ann Hultgren	510 points
Daisy Mae Hester	447 points
Georgia Moen	528 points
Judy Pangburn	495 points
Jean Schumaker	529 points
Pat Sundeen	495 points
Elaine Stanley	585 points

Girls receiving All-City emblems this year are:

Virginia Ballack	709 points
Marjorie Swenson	732 points
